Overwhelmed with record keeping?

WE CAN HELP!!

Friendly, Knowledgeable Agents

Gordon Ag Group, Inc. was founded over 30 years ago as an agricultural and environmental consulting company. Our mission is to supply expert, independent, third-party consultation and laboratory analysis to assist agriculture producers and area municipality officials in making science-based, results-oriented decisions.

At Gordon Ag Group, our team of professionals is dedicated to serving agronomy, environmental and risk management needs in and around central Indiana. We deliver expertise in soil analysis, livestock permitting and compliance, and Federal MPCCI crop insurance.

Let Us Simplify Your Life & Put Your Mind at Ease

We will help you get organized and make sense of it all. Please call for a no pressure, no obligation appointment to see what we can do for you.

Our Goal as Your Operation's Compliance Consultant

- Keep You aware of and updated to ANY and ALL rule changes
- Assist with implementation of rule changes as they affect your operation
- Assist with general record keeping, manure application, and soil fertility recommendations to maintain compliance with Indiana regulations
- Serve as a professional contact between the producer & IDEM
- Provide professional service & advice regarding your livestock operation
- Create an **INDIVIDUALIZED** plan to help **YOUR** operation **SUCCEED!**

Let me Introduce Myself!

<<< We are with you every step of the way >>>

Our service begins during the earliest planning stages of your operation and will follow you into the future. We will assist with pre-permitting preparation, help you apply for your IDEM permit, create your operating record, show you exactly what needs to be recorded and when, provide regular updates and review of your operating record, be the liaison between you and IDEM for any future correspondence, represent you at IDEM inspections and be available to answer any and all questions. When it comes time for your 5 year permit renewal we can complete and submit the application on your behalf. If you decide to change, transfer, or close your operation we can handle that too.

Whether it's a simple question over the phone or a comprehensive on-site farm visit, we are here to serve all of your livestock & agronomy needs. We are always available for professional, courteous advice and recommendations.
